

3486 LUMEN IP68 SOLID LED FLOODLIGHT WHITE

Product catalogue 2024

LED lights output over 3400 lumens of brilliant white light - that's lighter than a 300W halogen! They are also completely shockproof, waterproof (IP68), rust proof, shatterproof, last for 50,000 hours, draw a measly 34W, turn on instantly, have a beam throw of up to 183m, work oU' 12VDC or 24VDC, and can handle pretty extreme temperatures without fuss. A must have for any serious 4WD bull bar or roll bar, or for any other application where extreme ruggedness and blinding brightness are desired. Fitted with marine grade 316 stainless steel fasteners.

Key Features

01. IP68 Waterproof Rating

IP68 is one of the highest levels of water and dust resistance. This means the floodlight is completely dust-tight and can withstand continuous immersion in water, making it suitable for use in harsh environments.

02. Shockproof

The LED floodlight is built to withstand shocks and vibrations, ensuring it remains functional in rugged conditions. This is particularly important for off-road vehicles and industrial applications.

03. Long Lifespan – 50,000 Hours

With an estimated lifespan of 50,000 hours, the LED floodlight offers a long operational life. This reduces the need for frequent replacements and maintenance.

04. Equivalent to 300W Halogen

Despite using only 34W of power, this LED floodlight provides light output equivalent to a 300W halogen lamp. This efficiency means you get a high level of brightness with much less energy consumption.

SPECIFICATION

- Beam pattern: Flood
- Beam distance: max up to.183m.
- Lumen output: 3486
- Equivalent halogen lamp: 300W
- Input current: 2.4A (12Vdc), 1.2A (24Vdc)
- Operating temp: -40°C ~ 60°C
- Dimensions (mounted): 120(Dia.) x 82(D)mm (excluding bracket)
